Career Objective:

As a Frontend Developer with a background in Computer Science and Engineering, my career objective is to leverage my technical skills and creativity to craft intuitive and visually appealing user interfaces. I aspire to contribute to innovative projects where I can continuously learn and grow, while delivering high-quality, user-centric solutions. My aim is to collaborate with diverse teams to push the boundaries of frontend development, ultimately enhancing user experiences and driving business success.

Project:

- **Homely: Bridging the gap for home comfort!** 10/23-11/23
 - Reactjs, Redux, TailwindCSS, Nodejs, Bcrypt, Slices, VScode, Team-2
 - Homely is a comprehensive service designed to address the needs of individuals living in different cities who miss home-cooked meals and face laundry challenges. The service combines a meal delivery system with laundry assistance to provide convenience, comfort, and a taste of home for its customers!
